Declaration in Support of Accompanying Petition to Make Special

Reason II—Infringement Exists

In support of the accompanying Petition to Make Special, applicant declares as follows: \*

1. I am the applicant in the above-identified patent application.
2. The infringement of the above inventions already exists. As you can see my application was filed on April 30, 2001. My bank, with which I had shared my said invention, came out with an almost similar debit card about three months ago. I was already apprehensive when I had applied earlier for a petition to make special, which was denied by Mr. Pinchus M. Laufer, 703-306-4160, On May 20, 2002.

My invention of the same account debit cards with regular value and weekly limit value is similar to my bank's introduction of a debit card for students with a lesser value linked to the same checking account. I inquired with other banks. They do not have this kind of debit card. I am enclosing a flyer of the student access card, given by my bank, The Bank of New York.

Very respectfully,

A Khan
